

## ORGANIC AND BIODYNAMIC WINE LIST

We only collaborate with small growers who work organically and biodynamically in the vineyard.

The wines are made from grapes that have been grown without chemical fertilizers, pesticides or herbicides. The fermentation is made with indigenous yeasts, no artificial additives have been added and very little human interferences are used in the winemaking process.

This wine list is focusing mainly on French wines with a few other great wines from other countries

**Most of them are also available to take away at a retail price.**

**Don't hesitate to ask for any recommendation.**
